### **DIVISION I – HORTICULTURE RULES**

1. All exhibits must be FRESH and must have been grown by the exhibitor.
2. Plant material must be in its natural state and may not be altered by application (treatment) of oil, commercial “shine” products, etc., that change the natural appearance. No wiring of specimens is permitted.
3. Only foliage and/or flowers naturally grown and still attached to the specimen are permitted in the Flower Show. Unattached foliage is never included with a cut bloom specimen.
4. All plant material must have been in possession of the exhibitor the appropriate number of days. (Annuals, perennials and bulbs 90 days; arboreals, 6 months; combination plantings, 6 weeks. (Refer to individual horticulture sections for more details.)
5. The rules for a single species cut or container-grown specimen are listed in the *Handbook for Flower Shows*, Rev. 2017, or its supplement, *Horticulture Exhibiting and Judging*.
6. In order to receive a NGC Top Exhibitor Award, the exhibitor must identify her/his entry by its binomial name or currently acceptable scientific designation. (Consult *Handbook for Flower Shows*, Rev. 2017, Exhibiting in the Horticulture Division, Chapter 6, pgs. 53-4.)

7. Entry cards are to be filled out in pencil or waterproof ink, in advance if possible. (See sample entry card on page 8, or consult *Handbook for Flower Shows*, Chapter 6, pg. 57.)

8. Cut specimens should not have foliage below the water line, except for *Gladiolus*.

9. If a plant is considered a flowering plant, it should be exhibited as a flowering specimen. Foliage plants may flower, but should be exhibited as a foliage plant if they are grown for their leaves. (Refer to plant listings in this schedule for clarification.)

10. Specimens with a class designation in the schedule may not be entered in the 'Any Other Worthy' class.

11. The Horticulture Classification Committee Chair and/or General Show Chairs are free to subdivide classes by color, form, size, cultivar, variety or other distinguishing characteristics following the guidelines on page 3 of the *Handbook for Flower Shows*.

12. Containers will be provided for all cut specimens (except collections) by TCGC. Dahlias may be exhibited in Dahlia society approved containers.

13. Exhibits may be neatly wedged using *committee supplied* or approved wedging material in the neck of the container. (Wedging helps to correctly position an exhibit for a beautiful presentation.)

**Prohibited noxious plants:** Japanese Knotweed (*Fallopia japonica*), Oriental Bittersweet (*Celastrus orbiculatus*), Autumn Olive (*Elaeagnus umbellata*), Spotted Knapweed (*Centaurea stoebe*), *Phragmites australis*.
